

CURRICULUM VITAE

Name: Prof.Dr.ALI NAEEM

Surname SALMAN

Date of birth: 18 August 1969

Marital status: Married

Language: English, Italy, Arabic

Office Address: College of education for pure science , University of Thi Qar , Iraq

Email: dr.ali-n@utq.edu.iq

EDUCATION:

1986-1991: Baghdad university B.S. in Biology, Iraq

1996-1999: Baghdad university MSC in Embryology and Histology, Iraq

2005-2009: Medical School "Magna Graecia" **Ph D. In *Molecular Oncology, experimental immunology and development of innovative therapies.* Italy**

2004: Ranked a Lecturer degree in college of education , Thi Qar university

From 2011 assistant professor, College of education, University of Thi Qar Nasseriyah IRAQ

Now from 2016 professor, College of Education for pure Science, University of Thi Qar Nasseriyah IRAQ ,

- **Administrative positions:- Previously Dean of the College of Nursing in Thi Qar university around 4 years**

- **Also I worked in administrative positions: Department Head, Head branch, Associate Scientific Dean, Administrative Associate Dean, and Department Decision ...**

ONCOLOGY TRAINING:

2005 – 2009: Experimental oncology Lab residency training in Medical School

“Magna Graecia”

four years of residency covering all oncology-related fields including adult and pediatric oncology, theoretical and practical training on Molecular Oncology Lab.3

laboratory Practice and experience : work with cell and tissue culture(include cell lines), immunological method to detect molecular events in the cells (like western and northern blot or other immunological reactions, ELISA technique , also PCR and RT-PCR . and some of DNA, RNA, and Protein detection and extraction . effect of some innovate therapy in cell cycle with oncology experiment

Major responsibility now in Iraq : diractory and responsible for sera and molecular immunology lab for higher education student. And now aday I supervising One Msc. Student and tow Ph.D student. and now from 10/09/2023 head of the Biology dept. college of education for pure Science in the University of Thi Qar...

My current work it`s to detect some of the polymorphisms and protien expresion efficiency that`s may be responsible of some autoimmuno desease in my province and the first i CTLA4 gene, Hsp70 ..ect.

Date of employment in government: From 1\08\1994 in Ministry of higher education and Scientific Research IRAQ

Specialization: Molecular Oncology, experimental immunology and development of innovative therapies

Thanksgiving : 8 from the manistere 32 from Head of the University and 35 from the Dean.

Multiple participation in local and international workshops, seminars, and courses...

Supervision of postgraduate students outside Iraq... Member of the Ministerial Quality Committee....

Member of the promotions sub-committee.

Founder of evening studies at the College of Nursing in 2018

Multiple participations in community service events.

Editorial member in a number of international scientific journals.
